Explore Your Meteorology Career

A Virtual Career Exploration Program for High Schoolers

Are you fascinated by weather, storms, climate, and the science behind forecasting?

Join us for a new three-day virtual program designed to introduce students to the exciting world of careers in meteorology and atmospheric science.

During this engaging half-day virtual experience, students will:

- Meet meteorologists and weather professionals
- Discover careers in forecasting, research, broadcasting, climate science, and more
- Ask questions and hear firsthand career stories from professionals in the field

July 20 - 22, virtually
9am - 1pm EST
\$300
